The Kanati Overland RTX was created for drivers of pickup trucks, CUVs, full-size SUVs, and jeeps who enjoy off-road adventures yet desire a smooth and comfortable ride on the highway. With over a decade of research and experience behind the Overland's optimized construction and reformulated rubber compound, it's Kanati's most advanced and best-performing tire to date. The Overland's multi-directional sipes are designed to boost traction and grip in both wet and dry conditions. An aggressive sidewall design offers extra biting edges when needed while adding an off-road curb appeal to your vehicle. At the same time, the balanced void ratio and open shoulder blocks provide reliable self-cleaning power to protect the tire's core from damage without sacrificing rider comfort.

TERRA COMMANDER RTX

STREET PERFORMANCE / RUGGED OFF-ROAD LOOK

- Optimized void ratio for a comfortable ride and low noise
- Aggressive sidewall and shoulder lugs for a rugged off-road look
- Stone ejectors provide easy clean-out between lugs
- 3-ply sidewalls for added strength and stability
- M&S rated

The Terra Commander RTX is the perfect companion for drivers who want a tire that can comfortably cruise the open highway and navigate light off-road conditions. The tread design of the Terra Commander features closely placed lugs that allow for greater contact on the road for a smooth ride and less road noise. Stone ejectors between the lugs help remove stubborn rocks and other debris, while the siped lugs provide extra flex and grip when adventuring off the beaten path. Combined with its broad shoulders and aggressive sidewall, the RTX gives your vehicle a rugged off-road look that others will envy. This new Kanati tire is more than capable of getting you through your daily excursions and back; all you have to do is decide which direction to travel.

COMMANDANT ATX

SUPERIOR TRACTION & HEAVY-DUTY LOAD CAPACITY

- 12-Ply rated radial construction for greater load carrying capacity
- 3-Ply sidewall for superior puncture and impact resistance

- Engineered for heavy or light duty trucks and large 6-8 passenger SUVs
- M&S Rated
- Quiet and smooth running, perfect for your daily driver

The Kanati Commandant ATX is a perfect daily driver for light and heavy duty trucks or large SUVs. The Commandant has an aggressive tread pattern and bold shoulder lugs designed to boost a truck's appeal and aesthetics while providing traction and increased handling in various terrains and conditions.

The Commandant's design was rooted in our Armor Hog ATX tire, which supports HD pickups and heavy-duty applications. However, the Commandant is lighter than the Armor Hog and still offers a high load capacity at a reduced weight.

The Commandant ATX provides drivers with a smooth and quiet ride, all while delivering the carrying capacity to pull harder and go further on or off the road.

*2-ply sidewall construction **Coming Soon

The Kanati Mud Hog sports an aggressive tread pattern that's ready to take on mother nature. Whether its conquering mud or crawling over rocks, the Mud Hog is engineered to push the limits of your off-road adventure. Featuring a large void ratio for easy clean-out and a wide footprint for superior traction and stopping power, you can dominate any terrain with confidence.

TRAIL HOG A/T-4

ALL TERRAIN / ALL WEATHER - SUPERIOR TRACTION

- Snow Flake Rated / #16 Studs for greater traction in winter conditions ❄️
- Tough 3-ply sidewall construction for durability
- Aggressive tread design for superior traction and control
- Optimized void ratio for smooth and quiet ride

The Kanati Trail Hog A/T-4 is a true all-season tire featuring an all-terrain tread that can handle all types of weather and road conditions. From rocky terrains to snowy paths to wooded trails, the Trail Hog provides excellent traction and responsiveness for all your off-road and overland adventures. Its heavily siped lugs and rugged beveled shoulder blocks deliver extra biting edges for enhanced steering and control. In addition, the Trail Hog A/T-4 is mountain snowflake rated and compatible with #16 winter studs for added traction in severe snow conditions

INTRODUCING THE
NAVPOINT HTX
 ALL-SEASON HIGHWAY PERFORMANCE

- Circumferential grooves for improved water expulsion
- Aggressive center tread for increased traction in adverse conditions
- Multi-angled grooves for enhanced traction in water or snow
- Closed shoulder design for reliable handling and greater stability

The new Kanati Navpoint HTX is a superior all-season highway-terrain tire made for light trucks, SUVs, and CUVs. With performance siping built in, the Navpoint HTX delivers extra flex and biting edges for enhanced grip and improved handling in adverse weather conditions. Two large circumferential grooves help expel water for increased traction on wet surfaces. Suitable for everyday driving and long-distance travel, the Navpoint HTX provides a smooth ride, excellent traction, and greater responsiveness in a variety of driving conditions.
